Purpose and Benefits: Live real-time audio/video communication through interactive technology that enables a patient and doctor who are separated by distance to interact simultaneously is referred to as telemedicine. The benefits of telemedicine include facilitating care to patients unable to attend office visits in person, reducing the expenses of traveling to see a physician and expanding patients' accessibility to healthcare services. This form is intended to obtain your consent to participate in telemedicine consultations with Dr. Sousa Cardoso.

Residence within Connecticut is required for telemedicine consultations with Dr. Sousa Cardoso. Residence will be verified prior to scheduling appointments. Some states or insurance plans place restrictions on where the patient can receive virtual care.

This service is only available to established patients. First office visits must be an in-office (face- to -face) appointment. And in-office appointments are required once a year.

Risks and Consequences: The use of video technology to deliver healthcare and educational services is a new technology and may not be equivalent to direct patient to physician contact. Not all patient situations will be appropriate for telemedicine. Following your telemedicine consultation, Dr. Sousa may recommend an in-office visit, or a visit to a hospital, urgent care, or your primary care doctor for further evaluation.

Confidentiality: Reasonable and appropriate efforts will be made to eliminate any confidentiality risks associated with the telemedicine consultation. To maintain your privacy, it is recommended that you use headphones, meet in a private area, and do not share any log in credentials with anyone.

Additionally, dissemination of any patient-identifiable images or information from this telemedicine interaction to other entities shall not occur without your consent, unless authorized under existing confidentiality laws.

Rights: You may withhold your right or withdraw your consent to the telemedicine consultation at any time without affecting your right of future care or treatment, or risk of the loss or withdrawal of any insurance program benefits of which you would otherwise be entitled. You have the option to consult with Dr. Sousa Cardoso in person if you travel to her office at 10 South Street. Suite 205, Ridgefield, CT 06877.

Nature of the consultation: The telemedicine consultation will be similar to a routine medical office visit, except interactive video technology will allow you to communicate with Dr. Sousa at a distance. During this telemedicine consultation, details of you and/or your child's medical history, examination, imaging results, and/or lab tests will be discussed through the use of interactive video, audio and telecommunication technology. Non-medical technical personnel may be present in the telemedicine location to aid in the video transmission. Individualized, integrative treatment plan is discussed. *Dr. Sousa Cardoso does not use a platform that records the consultation.* Dr. Sousa Cardoso will make notes on the consultation in your medical record.
